

Design Services

Professional Design Services

idesignatl is proud to offer professional design services that enable customers to enjoy the many benefits of planning, purchasing and installing their cabinetry projects from a design that works. The benefits include:

- Great sales tool for helping the end customer visualize their new kitchen, bath, etc.
- Efficient and accurate materials ordering, with your order being automatically generated upon final approval of the design
- Eliminates costly errors that result in extra materials orders, wasted time, and unhappy clients
- Speeds the contractor's time to completion, letting them get on to their next cabinetry job!

How It Works

Call your sales representative to discuss your project and order a idesignatnl Design Package listed below. idesignatnl offers different levels of design services, and your rep will help match the scope of your project to the level of design service required.

idesignatnl's Design Packages

All Design Packages include the initial design and two free revisions. Starting with revision #3, all revisions cost \$25 each.

COMPLETE DESIGN PACKAGE:

Includes one onsite field measure, customer consultation to find out their needs and wants (options, accessories, modified cabinets to customize their project, etc.), a set of 3D drawings, idesignatnl's cabinet and materials order, and installer's notes.

BASIC KITCHEN/BATH DESIGN PACKAGE:

(Jobs with 10 or more cabinets) Includes a set of 3D drawings, idesignatnl's cabinet and materials order, and installer's notes. idesignatnl will rely on measurements and space descriptions (digital pictures are helpful) provided by the contractor or homeowner, and will generate the drawings and materials list based solely upon information provided.

QUICK DESIGN PACKAGE:

(Jobs with fewer than 10 cabinets) Includes a set of 3D drawings and idesignatnl's cabinet and materials order. idesignatnl will rely on measurements and space descriptions provided by the contractor or homeowner, and will generate the drawings and materials list based solely upon information provided.
